

A SMALL SIP GOES A LONG WAY

Patience is the secret to success.

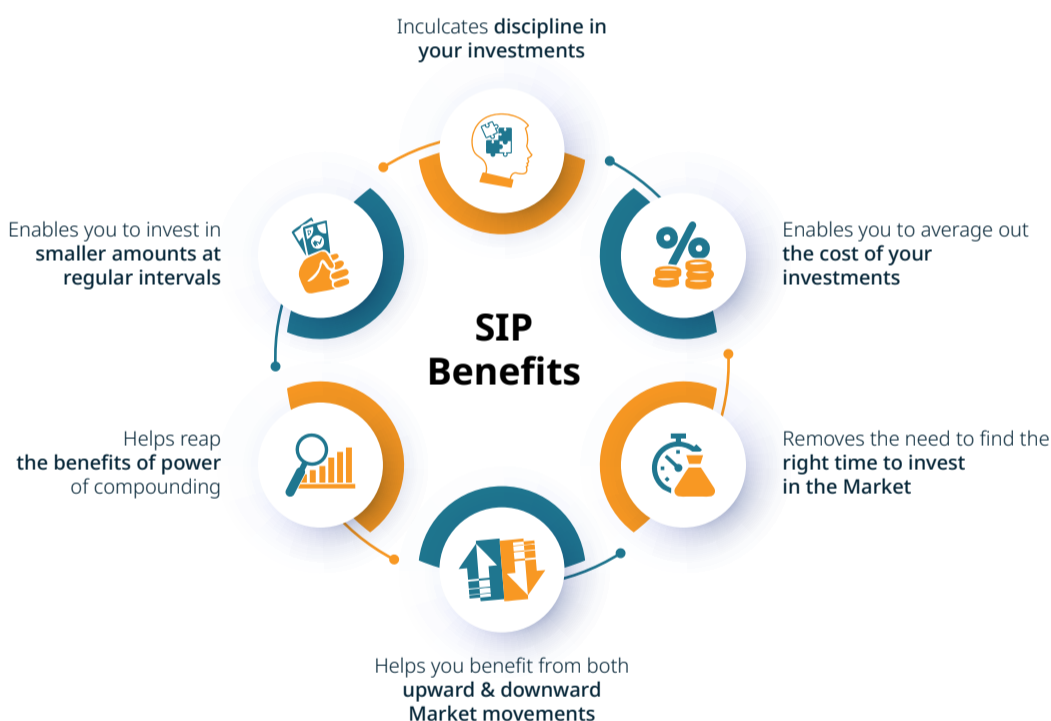

The Chinese Bamboo tree takes four years to develop its foundation, with no evident progress visible. But come the fifth year, and its shoots up to 80 feet within six weeks!

SIP Works like a Bamboo Tree!

Systematic investments in Equity Mutual Funds are similar to bamboo trees. Your consistent, patient investments towards financial goals may not reveal immediate results. But as you give them sufficient time to grow, you witness good growth.

An SIP or Systematic Investment Plan is a way of investing in mutual funds in a regular manner.

It provides you with an opportunity to invest small sums of money at regular intervals of time for a pre-defined period in your choice of mutual fund scheme.

Golden rules for SIP

Align your SIPs to your defined future goals

Start SIP in Equity mutual funds for long-term goals

Start SIP in Debt mutual funds for short-term goals

Start Early, no matter how small. Give your investments sufficient time to grow

Increase your SIP amount as your income increases & reach your goals faster

Be consistent with your SIPs and let it benefit from market movements

How to start SIP

Check our website www.unionmf.com or visit our nearest branch to start your SIP.

You can also Whatsapp us on 9321403687.

Choose a mutual fund scheme that best suits to your profile or let our financial advisors suggest the right schemes.

Choose your SIP amount and investment period.

Invest with the Growth option to let your money grow with time.
